Falcons, November is all about teamwork. Whether you are on the field throwing passes, slaying dragons with your adventuring group, or organizing the layout of the yearbook - teamwork is the key to success. That brings us to our word of the week : Synergy. Synergy is how you interact with one another. It is using your energy and skills to create something greater than the original parts. Synergy is how well you work with your teammates. Here it is in a sentence. When the musicians in Mr. Andersen's band are in sync with each other, their synergy cannot be denied. Good players can come together to present great musical performances. See the display case near the main office for more information about our word of the week.
