### Overview

#### Plan Name

SES SIP 19-20

#### **Plan Description**

Final

### **Goals Summary**

The following is a summary of the goals encompassed in this plan. The details for each goal are available in the next section.

| # | Goal Name   | Goal Details                                     | Goal Type      | Total Funding |
|---|---|--|----------------|---------------|
| 1 | All students will increase proficiency in mathematics.  | Objectives: 1<br>Strategies: 2<br>Activities: 16 | Academic       | \$33106       |
| 2 | All students will be proficient in reading.   | Objectives: 2<br>Strategies: 4<br>Activities: 22 | Academic       | \$595057      |
| 3 | All students will be proficient in writing  | Objectives: 1<br>Strategies: 1<br>Activities: 8  | Academic       | \$7976        |
| 4 | All students will be proficient in social studies.  | Objectives: 1<br>Strategies: 1<br>Activities: 4  | Academic       | \$9531        |
| 5 | All students will be proficient in science.   | Objectives: 1<br>Strategies: 1<br>Activities: 3  | Academic       | \$12422       |
| 6 | All staff will improve alignment of curriculum, instruction, and assessment to increase academic achievement. | Objectives: 1<br>Strategies: 3<br>Activities: 26 | Organizational | \$360379      |
| 7 | All Students will participate in activities from the MI<br>Career Development Model                           | Objectives: 1<br>Strategies: 1<br>Activities: 1  | Organizational | \$0           |

### Goal 1: All students will increase proficiency in mathematics.

#### Measurable Objective 1:

A 5% increase of All Students will demonstrate a proficiency in computation and problem solving in Mathematics by 06/30/2021 as measured by M-Step, NWEA, and other local common assessments.

#### Strategy 1:

Best Practice Instruction - Staff will utilize best practice strategies to improve student performance on mathematics.

#### **Category: Mathematics**

Research Cited: Grenier, G., Kros, F.J., Ross, A.L. (2005). Creating the Upside Down Organization. Baltimore, MD: The Children's Guild, Inc.

Children thrive and grow in a culture of adults who model the positive values, meaningful relationship skills and effective problem solving methods necessary for hope, happiness and success.

Marzano, R. J., Pickering, D. J., & Pollock, J. E. (2001). Classroom Instruction that Works: Research-based Strategies for increasing Student Achievement. Alexandria, VA: Association for Supervision and Curriculum Development.

Vocabulary instruction must be direct and engaging of all students to be committed to memory.

Payne, R. K., Paynes, R. K., Payne, R. K., & Aha! Process, Inc. (2005). A Framework for Understanding Poverty. Highlands, Tex.: aha! Process. Students are more successful when there are support systems in place to support their academic goals.

Smoker, M. (2006). Results Now. Alexandria, VA: Association for Supervision and Curriculum Development.

Content instruction should be developed and assessed in groups and established across content areas.

Van de Walle,, J. (2007). Elementary and Middle School Mathematics: Teaching Developmentally. New

York, NY: Allyn & Bacon; Pearson Education, Inc.

Number sense is a good intuition about numbers and their relationships. It develops gradually

as a result of exploring numbers, visualizing them in a variety of contexts, and relating them in ways that

are not limited by traditional algorithms.

#### Strategy 2:

Supplemental Support-Mathematics - An instructional coach/interventionist and paraprofessionals will support classroom instruction to facilitate or provide additional instruction for students who are below benchmark with the goal of improving academic achievement. School counselors and social workers will support improved academic success by supporting social and emotional needs of students. These activities are in addition to the district-wide activities identified in the academic achievement goal.

#### Surline Elementary School

Surline Elementary School

#### **Category: Mathematics**

Research Cited: Research Cited: 1. Classroom Instruction that Works, by Robert Marzano

Students learn best when teachers use data driven teaching skills based on uncovering skills and content connections versus rote memorization.

2. Results Now, by Mike Schmoker

Content instruction should be developed and assessed in groups and established across content areas.

Quality curriculum instruction is based on data and evaluated by staff at multiple levels.

3. Understanding Poverty, by Ruby Payne

Students need opportunities to connect to the material numerous times and in a variety of situations to commit the information to memory. Students are more successful when there are support systems in place to support their academic goals. Students in poverty need support systems to help to meet the needs emotionally, physically and academically which may not be met at home.

4. The RTI Guide: Developing and Implementing a Model in Your Schools, John E. McCook

5. Assisting Students Struggling with Mathematics: Response to Intervention (RtI) for Elementary and Middle Schools, IES Practice Guide, What Works Clearinghouse A tiered response to intervention system that includes a universal screener, progress monitoring, flexible grouping, and explicit and systematic instruction is necessary for meeting the needs of all learners

### Goal 2: All students will be proficient in reading.

#### Measurable Objective 1:

two 3 hour sessions

A 2% increase of All Students will demonstrate a proficiency in reading comprehension in English Language Arts by 06/30/2021 as measured by M-Step, DRA, Spring NWEA Reading MAP, and other common literacy assessments.

#### Strategy 1:

Best Practice Instruction - Reading - Building staff will utilize best practice strategies to improve student performance in reading.

#### Strategy 2:

Instructional Coach and Interventionist. - An instructional coach/interventionist will support classroom instruction in English Language Arts to facilitate or provide additional instruction for students who are below benchmark.

Category: English/Language Arts

Research Cited: 1. Classroom Instruction that Works, by Robert Marzano

Students learn best when teachers use data driven teaching skills based on uncovering skills and content connections versus rote memorization.

2. Results Now, by Mike Schmoker

Content instruction should be developed and assessed in groups and established across content areas.

Quality curriculum instruction is based on data and evaluated by staff at multiple levels.

#### 3. Understanding Poverty, by Ruby Payne

Students need opportunities to connect to the material numerous times and in a variety of situations to commit the information to memory.

Students are more successful when there are support systems in place to support their academic goals. Students in poverty need support systems to help to meet the needs emotionally, physically and academically which may not be met at home.

| The School Resource Officer supports and facilitates the<br>educational process within the West Branch-Rose City Area<br>School District by providing a safe and secure environment<br>through building and establishing meaningful relationships with<br>students and staff and proactively interacting with the school<br>community to ensure the enforcement of city and state laws,<br>preservation of public order, protection of life and the<br>prevention, detection, or investigation of crime. The assigned<br>officer will work effectively with students, parents, school<br>personnel and community agencies to support teaching and<br>learning in the schools. The School Resource Officer will patrol<br>district property to protect students, staff and visitors from<br>physical harm and prevent loss to district property resulting<br>from criminal activity. | Behavioral<br>Support<br>Program,<br>Community<br>Engageme<br>nt,<br>Academic<br>Support<br>Program | Tier 1 | Implement | 06/30/2018 | 06/30/2021 | \$54000 | Section 31a | Principal                |

#### Strategy 3:

Best Practice Instruction - Staff will utilize best practice strategies to improve student performance in all content areas.

### Goal 7: All Students will participate in activities from the MI Career Development Model

#### Measurable Objective 1:

increase student growth in the area of career interest and life long learning by 06/30/2021 as measured by participation in the activities found in the Michigan Career Development Model.

#### Strategy 1:

Inventory MI CDM - Each building will assess their current career activities.
