February 15, 2023

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2021-22 educational progress for the **Surline Middle School**. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact our Director of Curriculum and Instruction, Heather Phelps, for assistance.

The AER is available for you to review electronically by visiting the following web site www.wbrc.k12.mi.us selecting **Academics** at the top; then clicking on "Annual Education Reports" or you may review a copy in the main office at your child's school.

For the 2021-22 school year, schools were identified based on previous years' performance using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that had at least one underperforming student subgroup in 2021-22. An Additional Targeted Support (ATS) school is one that had a student subgroup performing at the same level as the lowest 5% of all schools in the state in 2021-22. A Comprehensive Support and Improvement (CSI) school is one whose performance was in the lowest 5% of all schools in the state or had a graduation rate at or below 67% in 2021-22. Some schools are not identified with any of these labels. In these cases, no label is given.

Our school has not been given one of these labels.

Key Initiatives to Accelerate Achievement and Close Achievement Gaps

Surline Middle School is working to close the achievement gap with the bottom 30 percent of students in each grade level. After a year of both face to face and virtual learning, teachers are focusing solely on teaching face to face this year. The district approved curriculums have been reintroduced this year after being paused last year to accommodate virtual learning using Accelerate Education. Staff is revisiting the work of Eric Jensen as all children benefit from his strategies including children of poverty and the bottom 30 percent. Teachers are supported through professional development and the use of a part time instructional coach. Implementation is monitored by administration during observations over the course of the school year using the 5 Dimensions of Teaching and Learning rubrics.

1. Process for Assigning Pupils to Schools

The West Branch-Rose City school district services most of Ogemaw County and parts of Gladwin and Oscoda counties and covers an area of approximately 538 square miles. Students are assigned to the K-5 buildings based on traditional boundaries for established attendance

areas and by parent request. Parents can contact the transportation department at 343.2240 with inquiries regarding the attendance areas.

2. Status of the 3-5 Year School Improvement Plan

The district improvement plan identifies the academic goals for all district students, including a measurable objective, strategy and activity details, and required fiscal resources. Each building submits a school improvement plan that is aligned to the district plan but has the flexibility to focus on action plans specific to the needs of the students in that building identified in the School Data Analysis. The building school improvement team evaluates the effectiveness of the plan and reports progress toward achieving the school improvement goals to the district school improvement team each spring. The school improvement team consists of representatives of all stakeholders. School improvement documents are available in each building, at central office, and on the web site www.wbrc.k12.mi.us.

3. Description of Each Specialized School

The district's four-year-old, Great Start Readiness Program, is designed to give students a start on school skills before entering kindergarten. Both elementary and middle school buildings qualify as school-wide Title 1 buildings, and students receive services accordingly. Besides in-district programs for students with specialized learning needs, students who are eligible may access the C.O.O.R. Educational Center at the ISD site. The purpose of the center is to provide services to students with specialized disabilities as defined by state statute.

4. Core Curriculum

Alignment to our state academic standards set forth by the Michigan Department of Education is reviewed following the district schedule of curriculum review and implementation. Adjustments are made within that schedule and as needed to meet the required changes. The Michigan standards outline learning expectations for our students and guide our work at the district level. Local content experts work together to choose the necessary resources, instructional strategies and pacing to meet the rigorous standards which are assessed using local and state assessments. Most recently we have adopted the ReadyGen reading series K-5 and My Perspectives series 6-12. These resources align our ELA program K-12 and continue our work to integrate the Essential Literacy Practices. Our math instruction K-5 uses Engage NY resources, while our higher math has recently adopted the CPM program focused on problem solving and collaboration. Teachers are immersed in professional learning surrounding our math and reading programs. Our Science instruction is focused on inquiry. We currently utilize Mystery Science at the K-5 level, the Modeling Curriculum 6-12, and Project Lead the Way in our Rose City School. Social studies teachers utilize the Open Book and Giants resources for instruction. Science and Social Studies teacher also receive professional learning from local and statewide sources.

5. Student Achievement Results for Nationally Normed Achievement Tests

NWEA (Northwest Evaluation Association) was administered to all students in grades 5-8 in 2020-21 and 2021-22. Results are as follows:

2020-2021	NWEA – READING			NWEA – MATHEMATICS		
	Achievement Status		Growth	Achievement Status		Growth
	Fall 2020	Spring 2021	Spring 2021	Fall 2020	Spring 2021	Spring 2021
Grade	Percentile	Percentile	Percent	Percentile	Percentile	Percent
5	56	15	19	51	23	22
6	69	63	51	52	28	21
7	70	53	42	49	41	45
8	74	51	29	67	54	33

2021-2022	NWEA – READING			NWEA – MATHEMATICS		
	Achievement Status		Growth	Achievement Status		Growth
	Fall 2021	Spring 2022	Spring 2022	Fall 2021	Spring 2022	Spring 2022
Grade	Percentile	Percentile	Percent	Percentile	Percentile	Percent
5	39	21	28	36	33	50
6	26	50	75	33	46	70
7	72	49	33	37	39	58
8	43	41	49	42	39	52

Status Percentile: Percentage ranking compared to the same grade and subject in the NWEA norms study.

Growth Percent: The percent that met or exceeded the growth projection for the grade from Fall to Spring.

6. Students Represented by Parents at Parent-Teacher Conferences

Parent-teacher conferences were scheduled for November and March. The number and percent of students represented by a parent or guardian at conferences are as follows:

Fall 2021: 33%

Spring 2022: 29%

The West Branch-Rose City staff is commended for the hard work and dedication that is evident on a daily basis. The district works to provide a quality education to all students and sets high academic standards. Accelerating academic achievement for all students is an expectation across the curriculum. Parent, community, and business involvement is welcomed at all levels; contact the building principals to learn about opportunities to get involved. I am proud of the fact that the district provides quality instruction and programs for students with support from the community. This will continue to be our organizational focus.

Sincerely,

Gail Hughey, Superintendent
